For 10 reasons... why you should join your professional colleagues in the American Society for Microbiology, the world's largest single biological science membership organization...

1. A monthly subscription to ASM News
2. Member rates on ASM's renowned primary research journals
3. Member rates on ASM's books
4. Special reduced member rates for the ASM Annual Meeting and regional conferences
5. An influential voice in Washington with an effective public relations program
6. Certification and registration programs through the National Registry of Microbiologists, the American Board of Medical Microbiology, and the American Board of Medical Laboratory Immunology
7. Outstanding continuing education workshops at member rates and superb educational materials including an extensive slide collection
8. A job placement service for a nominal fee
9. Optional life, disability and health insurance for qualified members
10. Opportunities to participate in the scientific division of your choice and join our 32,000 members in the promotion of the microbiological sciences

If these ten reasons (and there are many more) sound good to you, why not find out how you can join ASM today?

ASM TRAVELING WORKSHOPS
are designed to bring current information direct to your laboratory or other work setting.

Benefits of the Traveling Workshop Program:
☐ Saves staff time and budget for traveling to national meetings or distant campuses
☐ Introduces staff members to leading authorities in their field
☐ Improves communication about the profession
☐ Improves the quality of work in microbiology
☐ ECEP (Evaluation of Continuing Education Programs) for CEU credit
☐ ASM is an accredited organization for continuing medical education by the Accreditation Council for Continuing Medical Education

Features:
☐ Scheduled upon request
☐ Can be sponsored by any individual(s), organization, or institution
☐ Established faculty for each program
☐ Printed materials for each workshop
☐ Topics include:
  • Review of Concepts in Clinical Microbiology
  • Systemic Mycoses
  • Antimicrobial Susceptibility Testing: New Techniques
  • Identification of Aerobic Gram-Positive and Gram-Negative Cocci
  • Viral Hepatitis: An Update on Prevention and Control
  • Nontuberculous Mycobacteria: Laboratory and Clinical Aspects
  • Bacterial Diarrhea in Infants and Children
  • and 14 other topics of vital importance in the laboratory.

Use the coupon to request a complete information packet. Complete, detach, and mail to: Continuing Education Office, American Society for Microbiology, 1913 I Street, N.W., Washington, D.C. 20006.
